Sample document - try every tool on this file

This sample opens automatically on web, desktop and mobile (all packaged with Tauri). The same React code and the same Syncfusion PDF Viewer run on every platform, and the document stays on your device.

What to try

- Annotate: highlight this sentence, add a sticky note, draw with ink, or add shapes and stamps.
- Measure: use the distance and area tools on the floor plan on page 2.
- Fill & Sign: complete the form on page 3 and add a handwritten signature.
- Organize: open Organize Pages to reorder, rotate, insert or delete pages.
- Compare: open Compare to see what changed between two versions.
- Download: save a new copy with all your changes.

Floor plan for measurement

Scale 1 in = 1 in. Measure the room edges and the area.
