Syncfusion PDF Editor

The Syncfusion PDF Viewer is a lightweight and modular component for viewing and printing PDF files. It provides the best viewing experience with core interactions such as zooming, scrolling, text searching, text selection and text copying. The thumbnail, bookmark, hyperlink and table of contents support provides easy navigation within and outside the PDF files.

Annotations

This document is generated with Syncfusion PDF Viewer with all the annotations created programmatically. The annotations provide an extra information that is associated with a particular point in a document or other piece of information. The annotations that are associated programmatically can be modified at the UI.

Text Markup Annotation

Highlight Text

Highlight text while loading a document in the PDF Viewer.

Underline Text

Underline text while loading a document in the PDF Viewer.

Revised: the welcome paragraph was updated on the next release.
